

## Prospectus

The corresponding Author is asked to fill and upload this form when firstly submitting the book concept to the Publisher (presubmission phase). This file should be uploaded after the selection of "Prospectus" from the drop-down menu as Submission component.

During this presubmission phase, just the Prospectus and the Catalog data are considered. The full body text should be added as Book Manuscript Submission Component file after the first acceptance of the Prospectus by the Press Editor.

**Title and possible subtitle.** Concise, preferably not more than 180 characters

### Authors

Name and surname

Affiliation

E-mail address

Curriculum vitae or  
link to the personal  
Linkedin page

**Keywords.** Approximately 3-5 keywords, possibly adhering to MESH terms

**Abstract.** This is the book synopsis, less than 300 words, no references should be cited

**Chapter synopsis.** Brief synopsis (2-3 rows) for each chapter

**Length.** Expected approximate length in pages  
(1 page = 2000 characters including spaces = 300 words)

**Readership.** Audience to which the book addresses (e.g.: general categories: students, professionals, patients; and, if applicable, specific categories: immunologists, neurologists, MMG, nurses, diabetes patients, etc.)

**Why.** Why do you think it is worth publishing this book? What unmet needs does it address?  
What is its added value?
